

Hydraulic Fittings

Established in 1979 by Fastener Man of India Mr. Romesh Vig, Micron Precision Screws Pvt. Ltd. excels in meeting customer requirements and seizing opportunities in the global automotive and industrial fastener market. We are manufacturer of industrial fasteners and hydraulic fittings, offering a comprehensive range of standard and special fasteners/Fittings in metric and inch sizes (M4 to M48 mm). Our products are available in various grades (4.6, 5.6, 8.8, 10.9, 12.9,14.9, S20C, EN1A and EN8D) and conform to standard specifications, ensuring reliable tensile strength and precise performance. Committed to high-quality standards and excellent service, we prioritize customer satisfaction and aim for long-term relationships.

Nature of Business: High Tensile Fasteners & Hydraulic Fittings

Product Range: SHCS, CSK, Button Head, Hex Bolts/ Screws, Hydraulic Fittings like T, Elbows & Straight Adapters

Group Turnover: 52 M (USD)

Manpower: 1200+

No. of Manufacturing Units: 4

Testing Facilities: Spectro Meter, CMM, Profile Projector, UTM, Microscope, Hardness Tester, Optical Sorting, Eddy Current Machine, Roughness Tester, Keyence Measurement System

Global Presence: Germany (Warehouse) & UK (Manufacturing/ Warehouse)

Certifications: ISO 9001:2015 , ISO 14001:2015 , ISO 45001:2018 & IATF 16949:2016 certified

Fastener Monthly Manufacturing Capacity: 3000 MT

Hydraulic Fittings Monthly Manufacturing Capacity: 1.2 Million Pieces

Heat Treatment: 4 SCADA controlled fully automatic lines

Finish: 2 Fully automatic plating lines

OEM Customers: JCB, Caterpillar, Bobcat, Sany, CNH, Mahindra, L&T, XCMG, Liu gong, John Deere, Piaggio, TAFE, Kubota, Cummins, and many more.
