ABOUT US

Sanrom Hans is a leading product and solutions provider for fasteners, leveraging cutting-edge technology, streamlined manufacturing and distribution, and dedicated customer support for OEMs and global trade partners.

With 70 years of industry-leading experience, we take pride in our ability to maintain a comprehensive range of products. Our ready stock includes a wide variety of fasteners in all dimensions, ensuring a quick turnaround to keep our clients' supply chains smooth and efficient. In addition to standard fasteners, we offer extensive customization options requiring complex production methods, to fulfill the diverse requirements of our customer.

INFRASTRUCTURE

At Sanrom Hans, we take pride in our state-of-the-art facilities, meticulously designed to forge high-quality fasteners with precision and efficiency.

PRODUCTION

COLD FORGING

World class multi station bolt formers enable us to manufacture complex shaped fasteners and components with high level of precision. Range: Dia M5-24mm length

THREAD-ROLLING

We are equipped with world-class high-speed rolling machines to produce uniform threads with closer tolerance and better size controls.

HEAT TREATMENT

We have controlled heat furnaces and tempering furnaces to ensure exceptional quality standards.

SURFACE TREATMENT

We provide different surface finishes such as Zinc Plating, Nickel, Zinc Iron, Geomet.

MACHINING

We have a complete set up of CNC machines (make LMW) and Turning Machines to produce components with intricate dimensions and critical dimensions.

- Centerless Grinding
- Profile Turning
- Micro encapsulation facility

QUALITY

At Sanrom Hans, product quality takes precedence, positioned at the forefront of our priorities.

Our clients rely on the uncompromising strength of high-quality screws, nuts, and fasteners, which hold together mission-critical components by enduring intense vibrations, extreme temperatures, and constant stress. The right choice of fasteners directly impacts safety, reliability, and longevity. That's why our rigorous quality management procedures ensure every fastener meets the exacting standards demanded by the industry.

Product Quality

The emphasis on quality at Sanrom Hans is reflected in the superior standards of our products. All the items undergo thorough in-house testing, employing cutting-edge methods and technologies. Our in-house laboratory conducts assessments including spectral analyses, hardness tests, and salt spray tests. For on-the-spot testing requirements, our mobile equipment is readily accessible, ensuring comprehensive quality control across our product range.

Our Measurement and Testing Technology include:

Electronic Universal Testing Machine

Brinell Hardness Tester

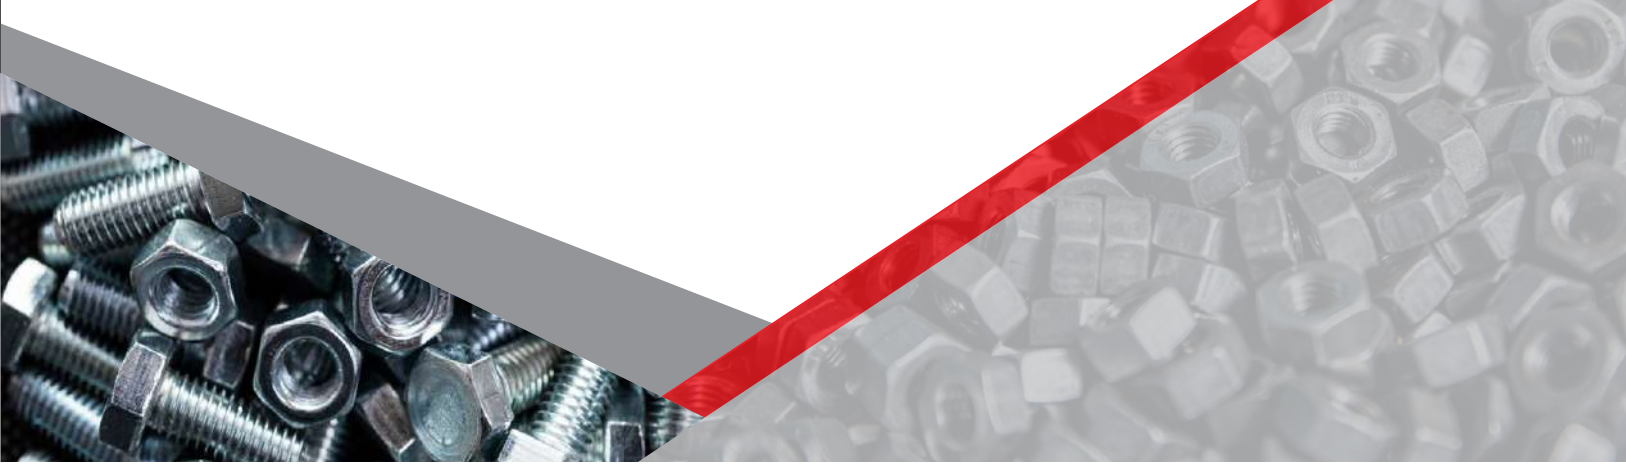

Salt Spray Tester

Spectrometer

The emphasis on quality at Sanrom Hans is reflected in the superior standards of our products

QUALITY MANAGEMENT PROCESS

Our complex quality management system ensures that we meet high standard requirements of complex and diverse business industries like automobiles.

Our quality management processes include:

Regular Quality Circle

Supplier Audits

Supplier Rating System

Staff Training and Education

Quality checks of in-coming goods

Further, we avoid waste, practice recycling, and use energy efficient methods to ensure minimal environmental risks.

PRODUCTS & SPECIFICATIONS

Bolts & Screws

Product	Size	Grade	Standard
 Hexagon head bolt & screw	M4 to M64	8.8, 9.8, 10.9, 12.9	DIN 931, DIN 933, DIN 960, DIN 961, ISO 4017, ISO 4014, BS-2470, BS-1768, ASME B 18.2
 Hex Head Flange Screw	M5 to M24	8.8, 10.9, 12.9	DIN 6921, ISO 4162, JIS B 1189
 Socket Head Cap Screw	M4 to M30	8.8, 0.9, 12.9	Din 912
 Countersunk socket head screw	M4 to M24	08.8, 10.9	Din 7991
 Hexagon socket thin head screw	M4 to M24	08.8, 010.9	Din 7984
 Button head cap screw	M5 to M20	ISO 7380-1	-
 Track Shoe Bolt	M4-64	8.8, 10.9, 12.9	-
 U Bolts Round Bent	As Per Customer Specification	As Per Customer Specification	DIN 3570A/B
 Lifting Eye Bolts	As Per Customer requirement	As Per Customer requirement	DIN 580, ISO 3266

Pin Products

Product	Size	Grade	Standard
 Dowel pin	4 mm to 40 mm	Unhardened & Hardened (58-62 HRC)	DIN 7, DIN 6325, BS 1804, ISO 2338, ISO 8734
 Pull Down Pin	M4 to M40	Hardened (58-62 HRC)	ISO 8735, DIN 7979D
 Clevis Pin	M5 to M40	5.8, 6.8, 8.8, 10.9, Case Hardened	DIN 1444, ISO 2341

Nut

Product	Size	Grade	Standard
 Hex nut	M4 to M42	8, 10, 12	ISO4032
 Nylloc nut	M5 to M30	8 & 10	DIN 982 & DIN 985
 Slotted Nuts	-	4,6,8	DIN 935, IS 2232
 Dome Nut/ Cap Nuts	Diameter - M3 to M 24	cl 6A2	DIN 986, JIS B1183
 Hex Flange Nut	DIA - M3 TO M16	cl 6, cl 8	ISO 4161, JIS B1190, DIN 6923
 Hex Weld Nut	M4 TO M12	-	DIN 929
 Cage Nuts	-	4,6, A2	DIN 929
 Square Nuts	-	4,6, A2	DIN 562, 557; JIS B1163
 Rivet Nuts	-	M4 to M12	ISO 3266; DIN 7337A/B
 Wing Nut	-	4,6, A2	DIN 315; IS 2636, JIS B1185
 Hex Jam Lock Nuts	-	cl 6,8, As Per Customer Specifications	ISO 4035,8675; DIN 439b; IS 1364(part 4); JIS B1181
 Square Weld Nuts	-	As Per Customer Specifications	DIN 928; JIS B1196
 Hex Key Wrench	Available in various sizes and length	-	-

Washers

Product	Size	Grade	Standard
 Spring washer	M4 to M30	44-51 HRC	DIN 127 A & B, DIN 7980
 Plain Washer	M4 to M30	140-250 HV	DIN 125 A & B, ISO 7089

Circlips

Product	Size	Grade	Standard
 Retaining Ring for Shaft (External)	3mm to 130mm	-	DIN 471
 Retaining Ring for Bores (Internal)	8mm to 160mm	-	DIN 471

Studs

Product	Size	Grade	Standard
 Threaded Rods & Studs	1 meter, 2 meter, 3 foot, 6 foot, 10foot as per customer demand	4.6, 4.8, 5.6, 8.8	-
 Nelson Shear studs	-	-	BS EN ISO 13918:2008
 Full Threaded Rods/ Studs*	-	8.8, 10.9, ASTM B7	DIN 975, 976
 Half Thread Stud	As Per Customer Specifications	As Per Customer Specifications	DIN 939, 835fo
 All Thread Rod Studs	From 1/4 to 4 inches (M8 to M48)	ANSI/ASME	A193 B7/A194 2H, A193 B7M/ A194 2HM, A193 B8/A194 8, A193 B8M/A194 8M, A193 B16/A194 4/7, A320 L7/A194 4/7, A320 L7M/ A194 7M. A2, A4 - Standard would be - ANSI/ASME

*Sizes above M24 are hot forged

PRODUCTS AT A GLANCE

HCV Wheel Bolts

Long Length Hex Bolts

Passenger Vehicle Bolt

Connecting Rod Bolts for Engine

Double Ended Studs

LCV Wheel Bolts

Hex Bolt

LCV Wheel Bolt

Flange Bolt

Nyloc Nut

Slotted Nut

Hex Nuts - Din 934

INDUSTRIES WE SERVE

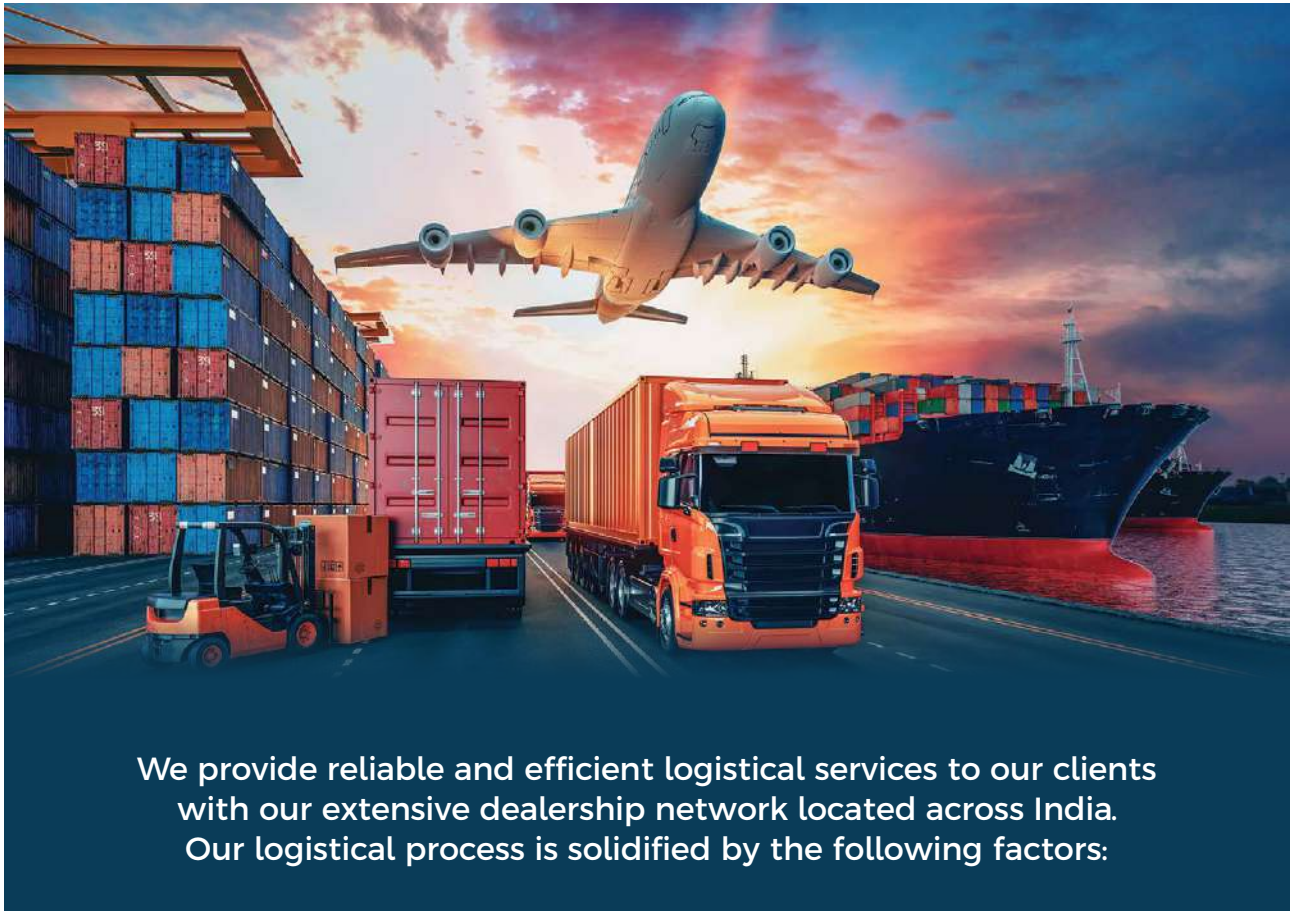

Our commitment to excellence extends across a spectrum of industries, ranging from automotive and construction to defense and beyond. At the core of our services lies the adaptability to meet the unique demands of each industry we engage with.

We cater to the following industries:

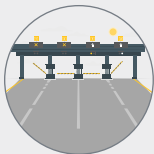

- ▶ Passenger Automobiles
- ▶ Heavy Commercial Automobiles
- ▶ Engineering
- ▶ Defense
- ▶ Infrastructure
- ▶ Agriculture
- ▶ Mining

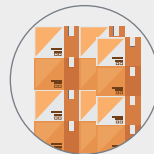

LOGISTICS

We provide reliable and efficient logistical services to our clients with our extensive dealership network located across India. Our logistical process is solidified by the following factors:

Excellent access to the Delhi Mumbai Expressway and the Freight Corridor, helping us create strategic tie-ups with leading logistic companies

3000 tons of ready, high-quality stock

7000 SKUs

Same day dispatch upon order confirmation

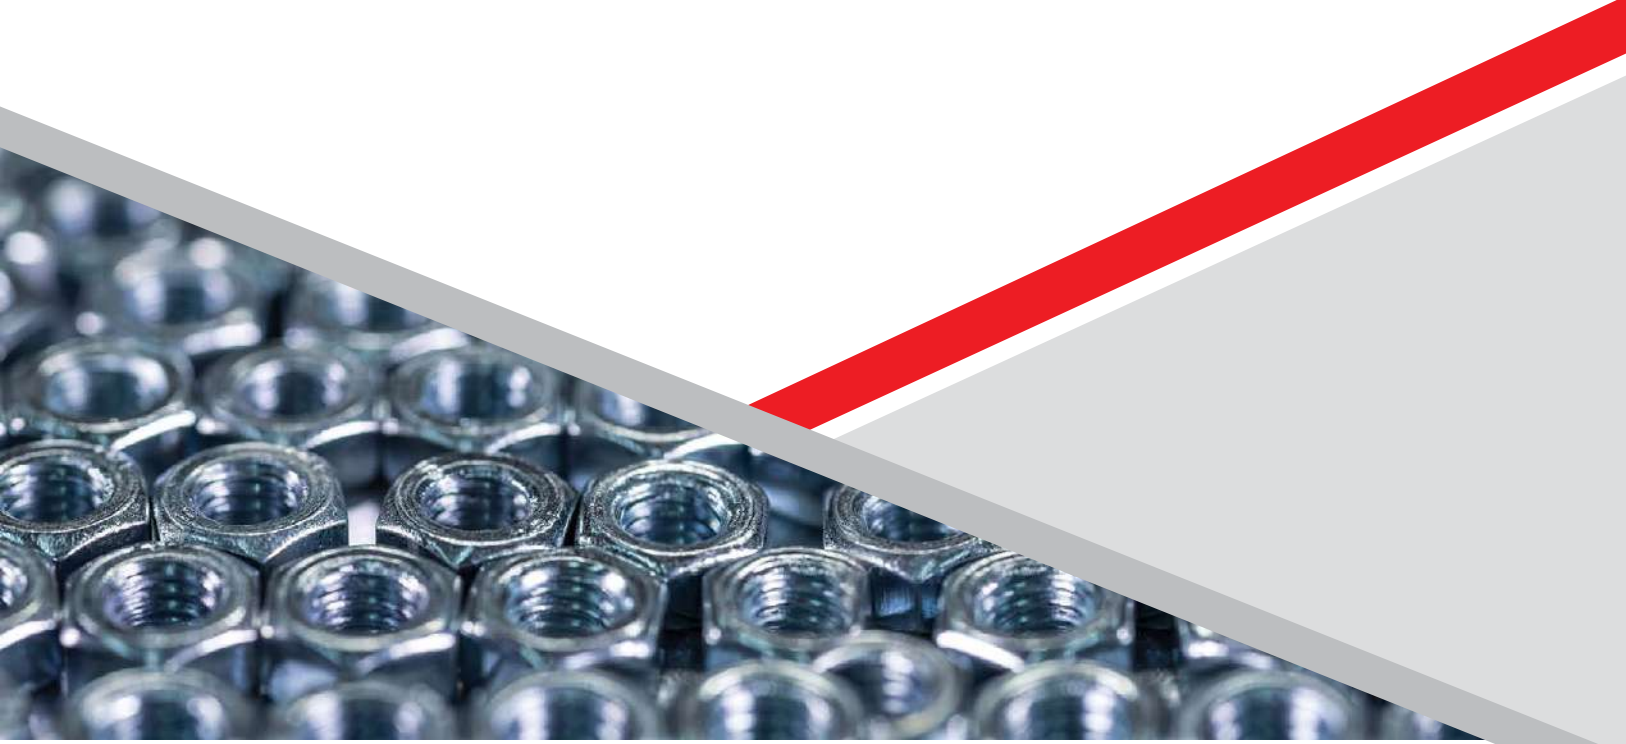

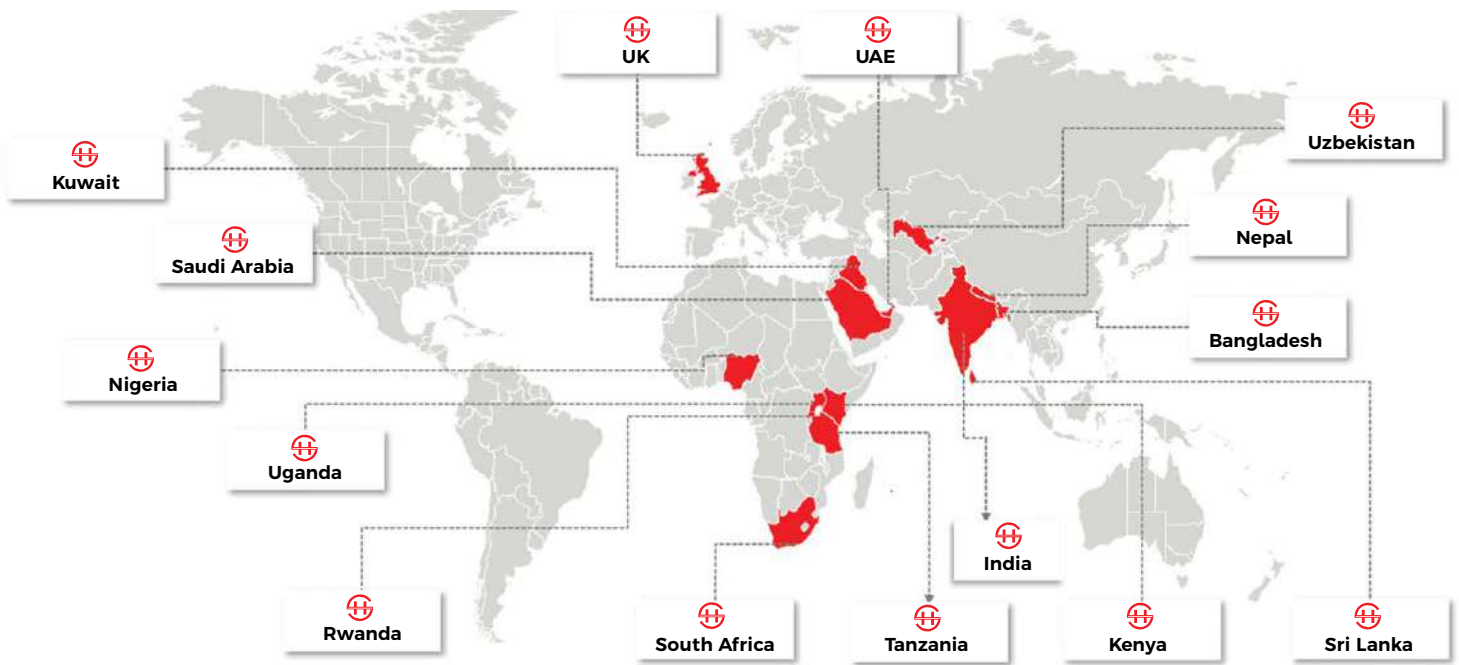

95 percent supply readiness

INTERNATIONAL PRESENCE

At Sanrom Hans, we take immense pride in our extensive international presence. We have strategically established ourselves in key markets like Asia, Africa and United Kingdom to deliver top-notch fastening solutions to customers worldwide.

Our relentless pursuit of quality and efficiency has enabled us to seamlessly export our products to various countries, contributing to the success and reliability of businesses across the globe.

PROCESS FLOW

KITTING & PACKAGING

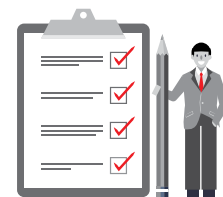

Do you need help choosing the right fasteners and fixing technology? Our kitting & Packaging goes above and beyond to fulfill your needs and your customers' needs. We work closely with you to design the perfect solution, like:

Kitting - compiling sets and assembly kits

Packaging - individual trader packaging

Customer-specific delivery documents

Customized delivery (e.g. container or KLT bins)

Extra labelling

B2B Packaging

No matter what you sell or the parts you offer, we've got your packaging covered. We personalize labels with your branding and design custom boxes to fit your needs and image. Choose from pre-made boxes or let us create unique packaging just for you.

Sets & Assembly Kits

Need parts for production, assembly, or maintenance? We deliver what you need, when you need it, in custom sets or ready-to-assemble kits. Save time and effort with our optimized packaging and optional extras like serial number tracking and pre-assembly.

Direct to Site Deliveries

Forget delays, keep your construction on track! Sanrom Hans ensures on-site C-part deliveries in crates or dedicated containers. Need more organization? We offer custom ROM systems tailored to your project, including fitting, racking, delivery, filling, replenishment, and even removal at project end.
